1. **Description:** Flyboard is a device connected to a Jetski allowing propulsion above and underwater, it can launch you high into the air and if you are able to get your balance you will be able to fly above the water. Our business is not only recreational but also educational. Everyone who comes to our Flyboard Office will be approached by our professional staff who will give an introduction and explanation of the sport. They will explain how to use the equipment and show you some techniques to be able to do the best tricks all while making sure the necessary security measures are put in place to be able to have the flight of your life.

Once the introduction is made, the participant is equipped with a life jacket and helmet and taken out via kayak 100m to our water platform where the training instructor equips the person with the propulsion boots to get ready to start the 20 minute flight session one on one with the instructor.

Once your flight has ended you will be brought back at the beach where you will be able to see all the photos taken during your flight. You will be presented with the opportunity to purchase them.

2. **Schedule:** We are closed on Tuesdays, the rest of the week we are open from 10am to 6pm.
